

“Further north you can see from a summit the blue endless carpet of
pine forest
where the cloud shadows are standing still.
No, are flying.”

Tomas Tranströmer

Swedish poet, Nobel Prize in Literature winner

Our beverage pairing philosophy

However seductive, the ideal of the perfect food and wine pairing implies that there's only one correct answer, while the truth is there are always multiple wines that can create magic with each dish.

That's why we like to keep our pairings fluid. It allows us to work with some of the world's most unique artisanal wines that are often available only in small quantities, and keeps every meal as fascinating for us, as it is for you.

Wine Pairing

Featuring only wines, this pairing is an exploration of flavour, but also of what's going on in the world of wine right now. Expect up and coming regions and winemakers, god forgotten grapes and under the radar classics, all weaved together into a conversation about what it means to make wine ethically and sustainably. Although specific bottles may change from week to week, they will always come from people, not corporations.

Nordic Wine Pairing

Featuring a mix of beverages, this pairing is an ode to the unique drinking culture of Scandinavia that historically has been too cold for grape growing. Its corner stones are craft spirits, beers, ciders and fruit wines, as well as some of the stranger things like sparkling birch sap or co-ferments. We will of course include some of the fascinating wines that have been coming out of Denmark and Sweden in the last decade, most of which are imported exclusively for Embla.

Nordic Wines

Although Scandinavia has not been known historically as a big wine producing region due to its cold climate inhospitable to viticulture, things are shifting rapidly as the climate patterns change around the world.

Vexebo Vin: Fredensborg, Denmark

Founded by Daniel Milan in 2007 with just 1 hectare under vines, Vexebo Vin focuses on hybrid grape varieties that can survive in a place that sits on the same latitude with Scotland's Edinburgh. A pioneer of organic viticulture in Denmark, Daniel makes delicious natural wines that are unlike anything else we've tasted.

Kullabergs Vingård: Scania, Sweden

Kullabergs Vingård comprises 14 hectares of vineyards distributed over three vineyard locations. The first vines were planted in 2006. At that time, the plantations consisted of one hectare. In addition to sauvignier gris, they also grow solaris, donauriesling, muscaris, auxerrois and johannites, as well as the blue grape varieties pinot nova, cabernet noir, rondo, regent.

Blaxsta: Sodermanland, Sweden

With soils close to those of Chablis and 25% more light hours than in the South of Europe during the summer, Swedish vineyards may be new to most, but have an incredible terroir that holds a lot of promise, and not just for hybrids.
